The Rossella srl management believes that the quality of its products and services is the essential element to ensure:

- The full satisfaction of the explicit and implicit needs of its customers;
- The company competition in the market in which the company operates;
- The full protection regarding the supplier's liability;
- The compliance with current regulations applicable to its activity.

The management wants to implement this policy by focusing on improving the company efficiency and security. Following factors are strategic:

- Maintaining and implementing a company quality management system in compliance with UNI EN ISO 9001:2015, which satisfies the requirements and finds, through the analysis of its context, the identification of the stakeholders, the analysis of process risks and the periodic monitoring of its performance, suggestions for improvement and actions to reduce any risks and threats.
- Involving all staff in training and motivational programs aimed to prevent problems and to constantly improve the quality.
- Continually reviewing company activities to ensure the adequacy of means and resources to the required quality objectives.
- Ensuring that customer requirements are defined and satisfied.
- Estimating the level of customers' satisfaction.
- Complying rules, laws and regulations applicable to products and activities.
- Evaluating the supplier performances creating a relationship based on collaboration and high confidence regarding the quality of the products purchased.
- Creating conditions of objective quality evidence.
- Implementing IT infrastructure to ensure continuity in cases of health emergency or unfavorable external context.

In order to guarantee the continued suitability of this quality policy for the company goals and strategies, it will be periodically checked.
